

# Barrier Foil Packaging

Vonco

## Barrier Packaging | Foil Pouches and Bags

High barrier foil packaging is the perfect solution for preserving and protecting products that are sensitive to light, moisture, oxygen, and gases.

Vonco Products foil pouches, bags and roll stock are well-suited for medical, diagnostic, pharmaceutical, food, electronics, personal care products and other sensitive applications. Our foil pouches feature strong weld sealing characteristics, are puncture resistant, provide extended shelf-life and can withstand sterilization, transport, storage, and use.

Our team of engineers can help with custom design foil packaging needs as well.

### Featured Barrier Properties

- UV resistant
- Moisture resistant
- Oxygen resistant Chemical
- and odor resistant

### Foil Packaging Features Available

- Foil with white or clear barriers (for optimal visibility)
